Upcoming Additions & Changes

Rent:

Effective October 29, 2007, every **NEW** resident coming into Tower View will be required to place their home on a cement foundation. Also, current residents can choose to have their homes placed on a cement foundation and the rent will be \$325.00.

The back page of this

Newsletter contains a

resident referral form.

This form can be copied

as needed or additional

forms can be obtained

from the office. If you

recommend a new resi-

dent that moves into

Tower View you will get

one (1) month free rent

returned to you in the

form of a check on their

Existing residents who choose not to have their

homes placed on a cement foundation will continue to pay their current rent of \$225.00.

Effective August 1, 2008 all residents will be individually billed for their own water usage. The rate charged to each resident will be the same amount that the city of Ogilvie charges Tower

View as required by law. All residents will be given two pre-bills prior to the actual billing start date to get a sense of what that will mean in terms of approximate cost for each resident. This way, each resident will be charged only for the water actually used by that resident.

Six Months In Review

It is hard to believe that more than six months have passed since Tower View changed owner-Initially our plans ship. were to continue the improvements the O'Connell's started and focus on bringing in new residents. Almost immediately unexpected problems cropped up and we want to thank you all for your patience while we work to fix these problems.

First, our street lights stopped working about the same time the snows came and as a result we could not locate the problem. On Thursday, May 30, 2008 we discovered that U.S. Cable accidently cut the electrical line going to the lights when they installed the new cable line back in November 2007 for the 200 row Now that we homes.

have fixed the break we have removed the overhead wire and everything should be back to normal.

Second, while Tower View was provided information on the amount

of water the community was supposedly using prior to the purchase we quickly discovered that the information was not accu-

rate and we were experiencing serious water loss. To date, between the water/sewer bills. water meters and outside consultants we have spent thousands of dollars attempting to locate the leak without success. Currently, Tower View

is losing approximately 100,000 gallons of water each month in addition to what every home is using. We will continue to explore every option available to us to resolve the leak as soon as possible. Unfortunately you will all have to be patient

as additional water interruptions will occur until the problem is resolved.

Starting on May 15, 2008 we planned on

bringing in more residents, replacing the streets and improve the landscaping. However, we were faced with a third problem in the Spring when the snow melted followed by the rain and we discovered the water was not suffi-

ciently draining away from the property. As a result we had to hire an engineering company to draw up plans so when we bring in new residents, replace the streets and improve the landscape it will be done in such a way that we should drastically reduce the amount of standing within Tower water View. We hope the engineering plans will be finalized in the next couple of weeks so we can begin the work as soon as possible.

Finally, we have gone and continue to go through considerable legal expense to have the O'Connell home removed from Tower View. A Sheriff's Sale is scheduled for July 1, 2008 and by no later than August 1, 2008 the home should be removed from the property.

Acknowledgements

We especially want to thank Phil and Marj Kitterman for their supportive efforts as they have had to do more work than was initially anticipated as a result of these unexpected problems.

Additionally, we would like to thank Al and Larry Blum for stepping in to help out with the snow this past season. Finally, we would like to thank everyone for helping keep Tower View a clean community that anyone would be proud to call home.

Upcoming Additions & Changes

⇒ Communication:

(Continued from page 1)

mental documentation there will be a new resident Notice/Request form that will need to be submitted for complaints to be processed and/or before work requests such as building sheds, decks and stairs etc are approved. Eventually we will have a community board posted outside of the office for community notices.

Tower View's website is currently under construction but it is up and running with a minimal amount of information. In addition to being able to get information about Tower View, visitors to the website will be able to download forms and documents, get information about the surrounding communities and residents will be able to list their houses for sale with pictures if they ever decide to sell their homes.

"A new lawn mower is being delivered to Tower View for the common areas and non-rented homesites. We should have a snow plow on site for next winter season."

Applicant Background Checks:

All NEW tenants that are approved to move into Tower View must meet minimum credit verification and pass a criminal background check. Applicants with criminal

convictions for violence against other people (excluding domestic violence) or drugs in the past ten years or sexual convictions at anytime will NOT be approved to live in our community. To date we have rejected two applicants and approved two applicants so our acceptance rate is currently 50%.

TowerView

\$325.00 per month
